

## EA Startup Career Fair

TUESDAY, JANUARY 12<sup>TH</sup>, 2021

6:30 – 8:30 PM

ENTREPRENEUR  
ASSOCIATION

## EA's Mission

Foster the entrepreneurial and venture community on campus and solidify Anderson as an innovation hub by encouraging new student-led ventures and opening doors to roles at startups and venture capital firms.

## What We Do

Offer more than **50** networking, educational and professional events each year (*~2+ a week during the school year!*). These include hands-on idea development and skill-building workshops, peer coaching for founders, visits to local startups and accelerators, dinners with successful entrepreneurs & venture capitalists, and business plan competitions.

Whether you want to start your own business, join a recently formed startup, become a venture capitalist, or inject a spirit of innovation into a larger company ... EA offers you the programs to help you achieve your goals.

[Join now on CampusGroups!](#)

## Student FAQ

**Q: How do I access the virtual career fair?**

**A:** Be on the lookout for a CampusGroup email that will contain a link to the event (will also live under event “location” on the CampusGroup event page), which is being hosted on the events platform [Hopin](#). We recommend that you register for the event prior to its start (6:30pm on January 12th) so that you can customize your profile. You will receive an e-mail at 6:30pm notifying you that the event has started or you can access the fair by logging into your newly-created Hopin account. Alternatively, you can also sign-in the night-of (even after the career fair has started) and still register and enter.

**Q: Do I need to create a Hopin account for the event?**

**A:** Yes, when you register for the event you will provide your graduation year and MBA program (i.e. FT MBA) and then be asked to create a Hopin profile by giving your full name and email address. You then have the ability to customize your profile and include things such as a photo and even add a link to your LinkedIn page.

**Q: Do I have to stay for the full 2 hours?**

**A:** No! Come and stay for any amount of time. With 50 registered companies, there will certainly be two hours worth of networking if you choose to take full advantage, but there is no requirement to stay for a particular period of time.

**Q: How should I prepare for the career fair?**

**A:** It's always great to have your resume up-to-date in case you find a good match, but no pressure to share with companies if you're not ready to. We recommend that attendees interested in finding employment look through the list of companies (starting on the next page) and do light research on the companies that they are most interested in to come prepared to talk about the roles that they want to apply for. Come to event dressed casually and ready to have good conversations!

**Q: Are startups hiring international students?**

**A:** Yes! You should know that apart from summer internships, most international students (depending on your visa status) are allowed to take up part-time work for up to 20-hours a week with CPT as long as it is in the realm of their degree program. You will have to work with Dashew to get the proper authorization, but there is a process in place - so that shouldn't stop you from attending the fair and scout for academic/summer internships or even full-time opportunities.

**Q: What if I already have a summer internship?**

**A:** Many people come to the career fair to find academic internships (mid-year internships) or just to network and learn about the startup community. There is no pressure to attend with any set agenda!

**Q: How long should I spend at each booth?**

**A:** Spend as little or as long as you want at each booth - treat it as a normal, in-person career fair. Don't be afraid to tell a company when you're going to move on (we know this can be a bit awkward virtually).

## Attending Companies

*\*companies highlighted in grey have registered but have not given final confirmation of attendance*

| Company     | Industry                     | Location             | Description  | Roles Available   |
